First Aid Course

Next First Aid Course(s) Spring 2017

The club is running another first aid course in **Spring** this year. The course is mandatory if you are an instructor or advisable if you are a level-2 powerboat helm. Certificates must be renewed every 3 years, so check the date on the current one in your logbook.

The course will also include instruction on using the club's automatic defibrillator.

There will also be optional instruction on the use of Category C medical stores (for Yacht Masters).

There are a number of possible dates before this year's training programme begins. For more information and access to the Doodle Poll to choose a date, please contact me as below.
